You're now connected to the FlightStream AOC. Open your browser and start surfing.

Apple Wi-Fi Connectivity Problems?

 Change your Wi-Fi settings to **disable Auto-Login**. (Auto-Join can remain on.)

IMPORTANT INFORMATION

This aircraft is equipped with AirSatOne's FlightStream AOC wireless router. The FlightStream AOC converts the internet data-stream to a format that is more suitable for satellite communications. The unit utilizes advanced acceleration, optimization and compression designed to account for latency and packet shaping considerations specific to satellite communications. **The end result is a faster internet experience for our passengers.**

Mobile devices such as the Apple iPhone, iPad and Droid are equipped with applications that automatically push uploads and downloads. These applications will cause excessive data usage and results in excessive airtime charges. **TURN OFF** all automatic connections including iCloud and iTunes.
