	<u>Smart Call</u> allows users to place calls to the aircraft using our 1-800 number from any location in the world using a two-step dialing process (1-800 number and PIN). More information.	\$0	~
~	<u>Smart Call Plus:</u> Smart Call Plus allows users to place calls directly to the aircraft located anywhere in the world by simply dialing a pre-assigned 10-digit terrestrial number. Prefixes are available for most countries or cities. More information.	\$20	~

All Airtime is for calls placed to Landlines (fixed) and Cellular Phones and includes Voice, Fax and Dial-Up Data. Airtime over the plan monthly allowance will be charged at the Additional Minutes rate.

Dashboard Monitoring and Notifications: Our Dashboard system is included with every plan. Customers can log on at any time to monitor total usage, plan allowances and set up usage warnings and automatic notifications. Our Dashboard system can automatically notify customers if the data usage is exceeded; total data usage can also be monitored at any time.

Calls placed to Smart Call Plus: Smart Call Plus fees include telecom fees charged by the carriers from the call originating point. Charges per minute vary depending on location.

Datalink / CPDLC / FANS 1/A: For Iridium systems capable of datalink including FANS 1/A (ADS-C, CPDLC), CNS/ATM or AFIS/ACARS see our [datalink price guide](#).
